

## HOW LEADERSHIP, STRATEGY AND NETWORKING OPERATE ON PREVENTIVE CONSERVATION

### Programme

**June 30, 2023, 2:00-3:30 p.m. (Rome Time)**

ONLINE AND IN PRESENCE EVENT

*Young Professionals Forum, Emerging skills for heritage conservation, the international sharing platform designed by the Centro Conservazione e Restauro La Venaria together with the most prestigious international organizations for the preservation of cultural heritage, has reached its fourth edition in 2023 and connected young professionals from all over the world who have enriched the current debate on cultural heritage with their points of view and perspectives.*

*How the skills of Leadership, strategy and networking operate on preventive conservation was the leitmotif of this year's Forum: from risk management to contextual analysis, from creating awareness on critical points about the evaluation of impact, to documentation and communication activities. This year's edition explored the great theme and challenge of climate change in relation to cultural heritage protection, conservation, and management as well as the different values of heritage for local communities and how they can be involved. Participants discussed the importance of leadership to enrich and hence involve others with the conservation of cultural heritage, new challenges, and future opportunities together with the current guidelines and policy to better manage and preserve tangible and intangible heritage.*

*This event offers the opportunity to share and debate the outcomes highlighted in the different workshop activities with partners (ICCROM, ICOMOS Italia, ICOM Italia, IIC and Fondazione Santagata for the Economics of Culture) by the international community.*

*The winners of the fellowships who attended "Preservation protocol for collections in Historical Residences", the final workshop dedicated to preventive conservation organized by the CCR in the majestic UNESCO heritage palace of Venaria Reale, will be present to show the outcomes of these three days' activities. Participants thanks to the acquired competences will share the results of spreading the culture of prevention, socio-economic responsibility with the aim of generating benefits ranging from the development of new skills, the improvement of research objectives and the promotion of forms of co-design for an interdisciplinary approach to conservation.*

*In addition the CCR will have the pleasure to award a fellowship, sponsored by Regione Piemonte, for a candidate coming from Syria presenting a focused on risk asset protection project in crisis areas.*
